

WEALTH MANAGEMENT

Aramco Savings Plan - Growth

Objective:

The **Growth Portfolio** invests primarily in stock funds across growth and value of all asset classes, but attempts to limit risk by allocating over 20% toward fixed income investments such as a bond fund or money market account.

Suitability:

The **Growth Portfolio** is an appropriate consideration for clients with medium to long term investment horizons, who understand, and are comfortable accepting, relatively greater risk in pursuit of somewhat greater return.
