

# FREE 401(k) REVIEW!

Until the last decade, the 401(k) industry has been fraught with high-fees, little to no regulation, and a lack of professional advice. Thankfully, we've seen quite a few laws passed that provide more clarity to plan participants about their 401(k)s, and the fees associated with those plans.

**However, No Plan is Perfect!**

Equally as important as understanding fees, it's critical to understand the investment options available to you in your 401(k) in order to best chart a path to a successful financial future.

*That's why we're offering a Complimentary 401(k) Tuneup!*

## The FREE 401(k) Tuneup will:

- Uncover any fees that may be exorbitant
- Provide an appropriate asset allocation specific to your goals and 401(k) investment options

We feel that the 401(k) is so important to your ability to retire successfully that we are offering this analysis at **NO COST**, and with **NO STRINGS ATTACHED!**

If you or somebody you know would like Reilly Financial Advisors to tune up a 401(k), simply walk into our office on the first floor (**Suite 116**) and one of our experts will be happy to help.
