Past performance may not be indicative of future results. Different types of investments involve varying degrees of risk. Therefore, it should not be assumed that the future performance of any specific investment or investment strategy, including the investments and/or investment strategies recommended and/or undertaken by Reilly Financial Advisors (RFA), or any non-investment related services will be profitable, equal any historical performance level(s), be suitable for your portfolio or individual situation, or prove successful. Due to various factors, including changing market conditions and/or applicable laws, the content may no longer be reflective of current opinions or positions. Moreover, you should not assume that any discussion or information contained in this commentary serves as the receipt of, or a substitute for, personalized investment advice from RFA. RFA is neither a law firm nor a certified public accounting firm, and no portion of the commentary content should be construed as legal or accounting advice. A copy of RFA's current written disclosure Brochure discussing our advisory services and fees continues to remain available upon request and at [www.rfadvisors.com](http://www.rfadvisors.com). Please Remember: If you are an RFA client, please contact RFA, in writing, if there are any changes in your personal/financial situation or investment objectives (for the purpose of reviewing/evaluating/revising our previous recommendations and/or services) or if you would like to impose, add, or modify any reasonable restrictions to our investment advisory services. Unless and until you notify us, in writing, to the contrary, we shall continue to provide services as we do currently. Please also remember to advise us if you have not been receiving account statements (at least quarterly) from the account custodian.

Historical performance results for investment indices, benchmarks, and/or categories have been provided for general informational/comparison purposes only and generally do not reflect the deduction of transaction and/or custodial charges, the deduction of an investment management fee, nor the impact of taxes, the incurrence of which would have the effect of decreasing historical performance results. It should not be assumed that your RFA account holdings correspond directly to any comparative indices or categories. Please Also Note: (1) performance results do not reflect the impact of taxes; (2) comparative benchmarks/indices may be more or less volatile than your RFA accounts; and (3) a description of each comparative benchmark/index is available upon request.
